-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE one MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Restriction to one of the following inventions¹ is required under 35 U.S.C. 121:
 - I. Claims 1-16, 32-39 drawn to a method of filtering email, classified in class 705, subclass various.
 - II. Claims 17-21 , drawn to a method of filtering electronic mail, classified in class 705, subclass various
 - III. Claims 22-25, 31 and 40 drawn to a method and apparatus for a clearinghouse to process an electronic mail check, classified in class 705, subclass various.
 - IV. Claims 26-30, drawn to a method for an electronic mail client to filter received electronic mail from a sender, classified in class 705 subclass various.

The inventions are distinct, each from the other because for example of following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.

¹ While an attempt was made to consolidate the prosecution of the multiple inventions of this case, the examination, in view of the additional search required by applicant's seasonal challenge to the office notice, requires additional search. The additional search is separate and distinct for each of the four groups cited above

Art Unit: 3624

3. Inventions I and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.

4. Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.

5. A telephone call was made to James Shaurette on Oct 15 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Respectfully

By, 

Richard Weisberger
